RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

The Woodland Development Corporation in Camden, New Jersey is a non-profit organization dedicated to providing inner-city social services. Our goal is to offer well rounded services to Camden residents, including childhood education, youth employment, job training and food bank information, as well as general support for low-income families. Over the last few years, we have been able to count on Comcast's support and to work with many of their departments to reach our goal.

Camden is one of the most high-risk areas for youth. Our community suffers from high crime and poverty rates as well as a failing education system. It is important that organizations like ours, who know the community and its residents, come up with programs that will help us overcome our many problems. It is also important for us to build partnerships with companies like Comcast who understand our community and are committed to our mission.

Comcast's commitment to diversity is evident from their work with us. Through partnerships with our organization, Comcast seeks to recruit new employees from the Camden area. As well Comcast's Human Resources department has helped us to put together a job training program to prepare Camden residents for jobs in both the cable and telecommunications industry, as well as the service industry.

Comcast's willingness to invest in the people of Camden is something special. We all know that good jobs are at the center of any healthy community and Comcast's jobs are not only good jobs, but jobs with health care, benefits, and the potential for advancement.

It is evident from Comcast's work in Camden that they value diversity and wants to build a diverse company as well as its surrounding areas. NBC will only benefit from a partnership with such a company and we look forward to seeing the impact that such a company will have not only on Camden but throughout the U.S.

Sincerely,

Rev. Floyd White, III

Rev. Floyd White
President
Woodland Development Corporation
